THIRTY-FIFTH ANNUAL REPORT

OF THE

STATE LUNATIC HOSPITAL

AT

HARRISBURG, PA.

FOR THE YEAR ENDING SEPTEMBER 30, 1885

HARRISBURG, PA.: EDWIN K. MEYERS, PRINTER. 1885.

Officers of the Mospital.

BOARD OF TRUSTEES:

TRAILL GREEN, M. D., President, Easton.

F. ASBURY AWL, Secretary, Harrisburg.

HENRY GILBERT, Harrisburg.

CHARLES L. BAILEY, Harrisburg.

ROBERT A. LAMBERTON, L. L. D., Bethlehem.

A. P. LUSK, Harrisburg.

D. A. ORR, Chambersburg.

A. H. LIGHT, M. D., Lebanon.

LEVI MAISH, York.

RESIDENT OFFICERS:

J. Z. GERHARD, M. D., Superintendent and Physician.
GEO. D. STAHLEY, M. D., Assistant Physician.
M. U. GERHARD, M. D., Assistant Physician.
JANE K. GARVER, M. D., Physician, Female Department,
MARTHA MORGAN, M. D., Assistant Physician.

BENJAMIN F. KENDIG, Steward. SARAH H. PALLOCK, Matron.

TREASURER.

D. W. GROSS, Harrisburg, Pa.

All Communications relative to general matters, the Admission of Patients and condition of Male Patients, should be addressed to

Dr. J. Z. Gerhard, Superintendent, Harrisburg, Pa.

All Communications relative to the condition of Female Patients should be addressed to

JANE K. GABVEB, M. D., Harrisburg, Pa.

Report of the Board of Trustees

— то тне —

COMMITTEE ON LUNACY OF THE BOARD OF PUBLIC CHARITIES.

To the Committee on Lunacy:

The Board of Trustees of the Pennsylvania State Lunatic Hospital have the honor to present their Report for the year ending September 30, 1885.

The report of the Superintendent and that of the female physician contain the statistics which will make you acquainted with the operations of the Hospital during the year.

The average number of patients in the Hospital during the year was 210 males, 221 females; total, 431.

The receipts of the Hospital for the year, from all sources, were \$116,810.43, and the payments \$99,376.89, leaving a balance on hand of \$17,433.54, of which amount \$695.13 are for insurance, and \$5,383.77 for repairs and improvements.

The average weekly cost of the support of a patient is \$3.96.

During the year, the wards have been fully occupied, and the Trustees have sustained the Superintendent in his efforts to prevent greater overcrowding of the Hospital. The policy of the Institution is to admit public patients only, but occasionally this rule cannot be followed, as when recent cases apply for admission whose means cannot meet the expenses required in a private institution.

With the money appropriated for the reconstruction of the heating apparatus and improvements in the cellars, a good work is being accomplished. Much credit is due to the Superintendent for the energy with which these improvements have been carried forward. The risks from fire have been greatly reduced, and the sanitary condition of the Hospital much improved.

The buildings are, however, very defective. The Trustees called your attention to their condition in their last annual report, and they gave you the testimony of Mr. Addison Hutton and Mr. John Sunderland,—gentlemen well known as skillful architects. A joint committee of the Senate and House also testified as to the condition

of the buildings, and the necessity of erecting new ones. The last Legislature made an appropriation of eighty thousand dollars (\$80,000) for building purposes. The Trustees entertain the hope that the authorities at an early day will see the wisdom of reconstructing the entire institution.

The various departments of the Hospital have been well conducted during the year.

TRAILL GREEN,

LEVI MAISH.

Report of the Superintendent.

To the Board of Trustees:

Gentlemen:—I have the honor to submit to you my Fifth Annual Report of the Pennsylvania State Lunatic Hospital, for the year ending September 30, 1885.

General Statistics of the Year.

	Male.	Female.	Total.
Number of patients at the beginning of the year	207	1 218	425
Admitted during the year	79	60	139
Total number under treatment during the year	286	278	564
Discharged during the year	74	60	134
Remaining at the end of the year	212	218	430
Average number present during the year	210	221	431

In connection with the admission of patients, two facts call for special notice: 1. The increase in the number of public patients; and 2, the chronic and hopeless character of the patients admitted.

The act of June 13, 1883, and subsequent legislation, reducing the charge to the county authorities to \$2.00 per week, for the care, maintenance, and treatment, including clothing, of the indigent insane, has induced the authorities to send many of the patients under their charge to the State Hospital, to the exclusion of those who had been formerly admitted, at a low rate of board as private patients.

The majority of applications for the admission of private patients were declined, and during the year we had the following changes:

	Male.	Female.	Total.
At the beginning of the year there were: Supported by friends	77 130	107 111	184 241
Total	207	218	425

	Male.	Female.	Total.
Admitted during the year: Supported by friends " public authorities	12 67	13 47	25 114
Total	79	60	139

	Male.	Female.	Total.
Discharged during the year: Supported by friends	34 40	31 29	65 69
Total	74	60	134

	Male.	Female.	Total.
Remaining at the end of the year: Supported by friends	55 157	89 129	144 286
Total	212	218	430

The natural result of the present laws in force, so long as hospital accommodations are inadequate, will be to exclude private patients, and ultimately to remove all who are now supported by their friends.

As this is an old hospital, defective in nearly every particular, exposed to danger from fire and epidemics, it was not thought wise to overcrowd it beyond the present number of beds, which is far in excess of what it should be. Dormitories, originally intended for six or eight beds, now contain from ten to fourteen, and the cubic space allowed for each patient is from three hundred and seventy-five to four hundred and fifty cubit feet, less than one-half of what it should be in a hospital. The infirmaries erected during 1867 and 1868 in connection with seven of the eight wards for each sex, to be used for the separation of the sick from the general ward, are constantly occupied as dormitories, and in a number of our single rooms we have been obliged to place two patients.

Knowing that the beds as they become vacant would be required for the indigent insane, applications for the admission of private patients, except in a few most urgent cases, were promptly and positively declined.

It is often almost impossible to make the friends of patients understand why private cases cannot be received, when it is known that chronic patients sent by the public authorities are admitted.

It is right that the indigent insane should have State care, but provision should also be made for that large middle class who are neither indigent nor rich, and yet who constitute a very important element in the community.

So long as our wards are overcrowded, we must refuse to admit these patients, and in consequence treatment is often delayed until the disease has become chronic and they are sent to us through the public authorities to remain a life-long charge.

Dividing the admissions into three classes: First, those committed by their friends; second, those by Directors and Overseers of Poor; and third, those by courts, we have the following table, which exhibits the probabilities as to recovery on admission of male patients:

	Curable.	Incurable.
Committed by friends	10 6 8	2 14 39
Total	24	55

The eight curable cases sent on orders of court were indigent, the other thirty-nine, sent by the same authority, were chronic indigent, convicts, and criminals.

It will be seen that, at the time of admission, in only thirty per cent. was there any hope of recovery, and in seventy per cent. the cases were hopeless.

Our recoveries for this year compare very favorably with the average number of recoveries during previous years.

The mortality among the men during the year was high, but neither unprecedented nor unexpected. Last year the mortality was unusually low, only 5.8 per cent. of the average number resident; this year 12.3 per cent., making the average during the two years 9.05. During the previous ten years, the mortality was 10.61 per cent., and during 1856, the year of an epidemic, 14.1 per cent.

During this summer, there was a greater disposition than usual to diarrhea and dysentery, and during July, August, and September dysentery prevailed in an epidemic form.

Among the male patients we had ninety cases, with three deaths, and among the male attendants and employés, twenty-five cases, all of whom recovered. The cases were not all very severe, in some the disease was aborted after a few days' treatment, but in a number the disease was very serious and disposed to run a chronic course.

The deaths occurred among chronic cases of insanity, and in no case that proved fatal had there been any hope of mental recovery.

Among so many old, debilitated, and nervous people there are always some cases in which there is a tendency to diarrhœa and dysentery.

In looking over the reports of this institution for previous years, I find deaths from dysentery recorded as follows:

During 1854, 1 death from dysentery.

In the report for 1856, the Superintendent says: "On the 1st of July, an epidemic of dysentery, which prevailed extensively in the neighborhood, made its appearance and continued for six weeks, when it disappeared almost as suddenly as it had appeared. Though so extensively as to include nearly one-third of our household, the mortality was comparatively small. Eighty-four patients, and fourteen officers and attendants were attacked, and nine patients and one attendant died; nearly all the patients who died having suffered from mental derangement for a long period. Many of the cases were severe and very protracted, and in several cases death was clearly to be attributed to our inability to keep up a systematic medication, from the obstinate refusal of the patient to take the means prescribed." This shows how history repeats itself, and the epidemic of 1885 was a repetition, in every essential particular, of the one that visited this institution during 1856.

I have no hesitation whatever in giving it as my opinion that much of the malarial trouble during previous years, and the diarrhœa and dysentery during the present year, was largely due to the dark, damp, and mouldy condition of the cellars, where much of the earth had been saturated with the leakage from defective soil-pipes and sewers for many years.

During the summer of 1882, the sewers were reconstructed and the drainage greatly improved. This summer we are reconstructing the heating apparatus and improving the cellars. These changes will add to the comfort, improve the sanitary condition of the Hospital, and we may look for better health among the inmates in the future. When we think of the former defective sewers, the condition of the air-shafts and cellars, we should not be surprised that we have had so much sickness, but it is a matter of surprise that we have not had more.

REPAIRS AND IMPROVEMENTS.

The reading-room in the male grounds has been converted into a gymnasium, and is a source of great pleasure and benefit to some of the patients.

A brass band of eleven pieces has been organized, composed of patients and attendants, in charge of one of the physicians, and this promises to furnish diversion and entertainment for the household.

A large number of small repairs have been made to the buildings during the year, but the work in progress now, the reconstruction of the heating apparatus and the improvements in the cellars, under the supervision of John Sunderland, promises to be of the greatest benefit.

Just as soon as the money appropriated for the purpose became available, work was begun. These repairs and changes required the removal of the old heating apparatus, including all the radiators, pipes, and many loads of wood which surrounded it, a large amount of stone, brick, and other débris; the removal of all the ceilings in the hot-air chambers; the remodeling of all the flues in the cellars and of many in the corridors and in the rooms throughout the building. A large number of the rooms were without ventilating flues, and so far as could be ascertained, never had any; many of the flues also were filled with obstructions of various kinds, the accumulations of many years.

To improve the cellars, large windows were cut into them to admit sunlight and air; many of the unnecessary walls and obstructions were removed to secure a free circulation of air.

In the reconstruction of the heating apparatus, the old radiators and much of the pipe were used.

The radiators will now be supported on iron hangers and supports, inclosed with galvanized iron, and the danger from fire originating in the cellars has been greatly reduced, although the flues through the building are still defective and cannot be made secure without the expenditure of a large sum of money; yet it is believed that the danger from fire has been very greatly reduced, and that the building will be comfortably heated at a reduced cost for fuel.

But with all the changes and improvements that have been made in the drainage, ventilation, and heating of the buildings, they will always be very defective, and the institution can never be made such a sanitary establishment as a hospital for the insane, or any place where a large number of sick and defective people are crowded together should be. The very idea of a hospital implies that it should furnish all the most approved arrangements and appliances for the health and safety of its inmates. Buildings well adapted for the shelter and care of people who are well might prove altogether inadequate for the care of people who are sick, and require the most perfect conditions for life and the renewal of wasted or perverted energies.

If the Trustees will rebuild or enlarge the institution on this site, let the work be planned and carried out in such a manner as to reflect credit upon those who will be charged with the responsibility of the task.

The following newspapers and periodicals have been received free regularly during the year:

Arthur's Home Magazine, Philadelphia.
American Republican, West Chester.
Berks and Schuylkill Journal, Reading.
Bloomfield Times, New Bloomfield.
Church Advocate, Harrisburg.
Clearfield Republican, Clearfield.
Delaware County American, Media.
Easton Weekly Argus, Easton.
Easton Semi-weekly Free Press, Easton.
Franklin Repository, Chambersburg.
Harrisburg Weekly Telegraph, Harrisburg.
Harrisburg Sunday Telegram, Harrisburg.

Honesdale Citizen, Honesdale. Herald and Zeitschrift, Allentown. Jeffersonian, West Chester. Lebanon Advertiser, Lebanon. Lykens Register, Lykens. Lutheran Observer, Philadelphia. Muncy Luminary, Muncy. The Messenger, Philadelphia. Presbyterian Banner, Pittsburg. Post, Pittsburg. Raftsman's Journal, Clearfield. Shippensburg News, Shippensburg. Unabhængiger Republikaner, Allentown. Valley Spirit, Chambersburg. Weekly Examiner and Express, Lancaster. Wellsborough Agitator, Wellsborough. Wayne County Herald, Honesdale.

On various occasions during last winter, a number of Harrisburg friends furnished us with very enjoyable musical and dramatic entertainments. To the ladies and gentlemen who thus kindly favored us, we desire to express our hearty thanks. Such generous services, rendered by friends outside of the institution, are always very keenly appreciated, since they demonstrate to the officers and inmates of the Hospital the existence of human and friendly sympathy.

To the friends who generously contributed money to the Band fund, we desire to return our thanks.

We are again under obligations to Dr. H. L. Orth, for valuable surgical services rendered during the year, and we take pleasure in making this public acknowledgment.

Those attendants and employees and heads of departments who have faithfully performed their duties during the past year, I desire to commend for the services they have rendered. The existence of a serious epidemic of dysentery called for more than ordinary skill and fidelity. That the attendants proved themselves able and willing to meet the emergency, speaks loudly to their credit.

To my assistants and the medical staff associated with me, as well as the other officers, I am under obligations for their co-operation at all times, and the faithfulness with which they have performed the duties of their various positions.

I desire to express my appreciation for the manner in which the Trustees have shown their continued confidence in me.

Thankful for the blessings received during the past, we enter in faith upon the duties of another year.

J. Z. GERHARD, M. D.,

Superintendent.

October 14, 1885.

Report of the Physician.== Female Department.

To the Trustees:

Gentlemen:—I have the honor hereby to submit to you my second annual report in regard to the condition of the female patients in this Hospital for the year ending September 30, 1885.

There were 218 women at the end of last year in the institution, and the same number at the end of this year. Of this large number only 8 can be regarded as curable.

The average number present during the year was 221.

Of those admitted, 3 were epileptic, 17 cases were complicated with heredity, 5 were suicidal, and 8 had uterine complications. The larger number of those admitted were chronic cases.

During the winter and spring, our death rate was extremely low, and not until the present epidemic of dysentery reached us had we any considerable mortality. The first patient who died from that cause was over seventy years old, and quite feeble. Another was a very much demented person, to whom it was impossible to give either food or medicine. Three others, also much demented, had suffered many years from chronic diarrhæa, and readily succumbed to the attack of dysentery.

The death reported from acute melancholia was that of an old lady who came to us much exhausted from worry and long abstinence from food, and died three days after admission. Another case of recent admission died after the operation for strangulated hernia. The operation was performed with the greatest care by Dr. H. L. Orth, of Harrisburg. The patient died, not from the shock of the operation, but from lack of recuperative power.

We continue to have a certain number of cases under treatment for uterine diseases. We have had little restraint during the year, except among the most violent and destructive women.

The women continue to find employment in the laundry, kitchen, mending-room, sewing-room, and ward work; while many are occu-

pied in plain and fancy sewing or knitting, so that more than one half are occupied in some kind of work.

Owing to the temporary sickness of the seamstress, one of the patients has had charge of the sewing-room for several weeks, with marked success.

To the members of the Board of Trustees, I acknowledge my indebtedness for the acquisition of a new piano in the wards, which added much to the pleasure of the dances introduced last winter.

We extend our thanks to our friends outside the Hospital who so generously gave their time and talent for the entertainment of our patients during the winter.

To the Superintendent and members of his staff, I am grateful for favors done.

To Dr. Morgan, my faithful assistant, to my supervisors, and to my attendants, who have done their duty cheerfully and well, I desire to express my constant appreciation and thanks.

Respectfully submitted.

JANE K. GARVER,

Physician Female Department.

For the year beginning October 1st, 1884, and ending September 30th, 1885.

Treasurer's Statement.

Of receipts and expenditures for the year beginning October 1st, 1884, and ending September 30, 1885.

Receipts.

Admission of Patients.

[FORM.]

Request for Admission.

[FORM.]

Statement Concerning the Patient.

(If any particulars in this statement be not known, the fact to be so stated.)

- 1. Name of patient, with Christian name at length.
- 2. Sex and age.
- 3. Residence for the past year, or so much thereof as is known.
- 4. Occupation, trade, or employment.
- 5. Parents, if living; name and address.
- 6. Husband or wife; name and address.

- 7. Children; name and address.
- 8. Brothers and sisters, and the residences of each of these persons.
- 9. If not more than one of these classes is known, the names and residence of such of the next degree of relations as are known.
- 10. A statement of the time at which the insanity has been supposed to exist, and the circumstances that induce the belief that insanity exists.
- 11. Name and address of all medical attendants of the patient during the last two years.

[Signed] Name,

(When the person signing the statement is not the person who signs the order, the following particulars concerning the person signing the statement are to be added, viz:)

Degree of relationship, if any, or other circumstances of connection with the patient.

[FORM.]

Certificate of Physicians.

We, the undersigned, residents of Pennsylvania, hereby certify that we have, within one week prior to the respective dates hereinafter mentioned, at [here insert the street and number of the house, if any, or like particulars,] in the county of . . . , separately examined of , [insert residence and profession or occupation, if any,] and do verily believe that the said is insane, and that the disease is of a character, which, in our opinion, requires that the person shall be placed in a hospital or other institution where the insane are detained for care and treatment.

We further certify, that we have been actually in the practice of medicine for at least five years, and that we are not related by blood or marriage to the said , nor in any way connected as a medical attendant, or otherwise, with the hospital or other establishment in which it is proposed to place the aforesaid.

Dated this . . . day of . . . , one thousand eight hundred and eighty-

Dated this . . . day of . . . , one thousand eight hundred and eighty-

LUNACY LAW OF 1883.

Note.—The certificate must be signed by at least two physicians made within one week of the examinations of the patient, and within two weeks of the time of the admission of the patient, and shall be duly sworn to or affirmed before a judge or magistrate of the Commonwealth of Pennsylvania, and of the county where such person has been examined, who shall certify to the genuineness of the signatures, and to the standing and good repute of the signers.

And any person falsely certifying as aforesaid shall be guilty of a misdemeanor and also be liable civilly to the party aggrieved.

I, , a (judge or magistrate,) of county, of the State of Pennsylvania, do certify that the foregoing certificate was duly sworn (or affirmed) to before me, by the abovenamed , and , on this day of , 18 ; that the signatures thereto are genuine, and that the signers are physicians of good standing and repute.

[FORM.]

History of the Patient.

N. B.—The friends of patients making application for admission into the Pennsylvania State Lunatic Hospital at Harrisburg are requested, with the assistance of the family physician, to annex full and complete answers to the following questions:

1. What is the patient's name?

What is the age?

Is . . single, married, or widowed?

2. Where was . . born?

Where is . . present residence?

3. Profession, trade, or employment?

If a female, that of husband or father?

4. When did the first symptoms of insanity occur? Give a statement of those symptoms.

What evidences of insanity exist at the present time?

- 5. Has the patient any permanent delusions, hallucinations, or illusions, and if so, what are they?
- 6. Is this the first attack?

If others, what was their nature, when did they occur, and what was their duration?

- 7. Has the patient any disposition to injure others? if so, is it from premeditation or sudden passion?
- 8. Does the propensity to suicide exist?

Has the patient ever made an attempt? if so, in what manner?

9. Has the patient a disposition to destroy clothing, furniture, &c.?

Is the patient cleanly in . . habits?

10. What is the patient's natural temper or disposition, and has the disease produced any change?

Was there any peculiarity or eccentricity?

Has the disease occasioned any failure of the memory or understanding?

- 11. Have any members of the family ever been insane?
 On the father's or mother's side?
- 12. Has the patient ever been addicted to the intemperate use of intoxicating drinks, opium, or tobacco?

Was . . sedentary or active in . . habits?

Does . . indulge in any improper practices?

13. Has the patient ever had an injury of the head, epilepsy, or any hereditary disease, sudden suppression of any eruption or accustomed discharge?

Are there any symptoms of paralysis?

14. What is the predisposing cause of the attack?

What is the exciting cause?

Was the present attack preceded by any premonitory symptoms?

- 15. Has any restraint or confinement been resorted to? if so, of what kind, and for how long?
- 16. Has the patient received any medical treatment during this attack, and who were his physicians?
- 17. What is the condition of the stomach and bowels, and what of the genito-urinary organs?

Does the patient rest well at night?

18. State any other particulars of the patient's history which may have a bearing on the present attack.

[FORM.]

Bond for Private Patients.

Know all men by these presents:

That we,
of , in the county of , State of
Pennsylvania, are held and firmly bound unto the Pennsylvania
State Lunatic Hospital, and its successors and assigns, in the sum of
five hundred dollars, for the payment of which we jointly and sever-
ally bind ourselves by these presents.

Whereas, , of , of the county of , and who is insane, has been admitted as a patient into the Pennsylvania State Lunatic Hospital:

4

Now, therefore, the condition of this obligation is, that if the said obligors shall pay to the said Pennsylvania State Lunatic Hospital,
the sum of dollars and cents per week for
the board of said patient, so long as shall continue in said Hos-
pital, with such extra charges as may be occasioned by requiring
more than ordinary care and attention, and shall provide for
suitable clothing, and shall pay for all such necessary articles of
clothing as shall be procured for by the Steward of said Hospi-
tal, and shall remove from the Hospital whenever required to do
so by the Superintendent; and if shall be removed by the re-
quest of either of us, or by any one, before the expiration of three cal-
endar months after the reception, then, if said obligors pay board
for thirteen weeks, unless should be sooner cured, and if they
also pay, not exceeding fifty dollars, for all damages may do to
the furniture or other property of the Hospital, and for reasonable
charges in case of elopement, and funeral charges in case of death;
such payment for clothing and board to be made in advance, quar-
terly, and at the time of removal, with interest from the time each
payment becomes due, and should payment be not so made and col-
lection thereof be made through the attorney of the said Hospital,
such attorney's costs and charges for collection, not exceeding ten
per centum of the amount due said Hospital, to be also paid, then
this obligation to be void, otherwise to remain in force.

Bond for Public Patients.

Whereas, , a resident of , in the county of , State of Pennsylvania, has been admitted as a patient into the Pennsylvania State Lunatic Hospital at Harrisburg:

Now, therefore, we, the of the Poor, of , in said State, in behalf of the inhabitants of said , do hereby covenant and agree that we will pay, or cause to be paid, to the Pennsylvania State Lunatic Hospital, and its successors and assigns, the sum of dollars and cents per

week, for the board, care, and treatment of said , so
long as shall continue a patient in said Hospital, and to remove
from said Hospital whenever the room occupied by shall be
required by a class of patients having preference by law to be re-
ceived into said Hospital; and if shall be removed at the request
of the said of the Poor before the expiration of three
calendar months after admission, to pay board for thirteen weeks,
unless shall be sooner cured; also, to pay for reasonable charges
in case of elopement, and funeral charges in case of death.

Payments to be made quarterly in advance, and at the time of removal, with interest from the time each payment becomes due, and should payment be not so made and collection thereof be made through the attorney of said Hospital, such attorney's costs and charges for collection, not exceeding ten per centum of the amount due said Hospital, shall also be paid.

Instructions.

- 1. Copies of the blank forms above given will be furnished by the Superintendent upon application. With the exception of those cases who shall be committed by the order of a court, no patient will be received into this Institution unless the forms as given are fully complied with. All private patients thus received shall make a payment of thirteen weeks' board in advance, when brought to the Hospital, and if taken away uncured, and against the advice and consent of the Superintendent within that period, no part of the said payment shall be refunded.
- 2. Whenever the patient is sent to the Hospital by the order of any Court, Justice, Judge, Directors of the Poor of a county, or the Overseers of the Poor of a township or poor-district, the order or warrant, or a copy thereof, by which such person is sent, shall be lodged with the Superintendent.
- 3. Each patient, before admission, shall be made perfectly clean, and be free from vermin or any contagious or infectious disease.
- 4. Each male patient should be provided with two suits of clothing, two or three sets of underwear, a pair of slippers, a pair of shoes or boots, and an overcoat for special protection in cold weather whilst out riding or walking.
- 5. Each female patient should have two entire sets of comfortable under clothing, two substantial dresses for every day wear, together with a pair of shoes, a bonnet, and a shawl or cloak for out-door use.
- 6. It is very desirable that extra and better apparel should be sent with those accustomed to it, that when their health is improved, and when they attend religious worship, walk or ride out, their self-respect may be preserved. It will be properly cared for and only used when deemed necessary for the purpose above-mentioned. Jewelry and all superfluous articles of dress, knives, &c., should be left at home, as they are liable to be lost.
- 7. If possible, some one acquainted with the individual should accompany him to the Hospital, from whom minute, but often essential, additional particulars may be learned.
- 8. The charge for board, care, and treatment, including clothing, to the authorities of the townships and counties, for all who are supported by them, will be two dollars a week. For private patients, or those supported by themselves or friends, the price will vary from four dollars to ten dollars a week, according to the trouble and expense incurred, and according to their ability to pay. Payments are invariably required quarterly in advance.
